We are so excited about this year's Northerner yearbook we wanted to send another opportunity for everyone to purchase a book. If you already have made your purchase we thank you!

This year's book is bigger than last year's and now includes a special spring supplement that will cover activities normally not present in the book.

Hundreds of students have already been featured in the yearbook. The staff is determined to feature as many North Central students as possible this year. We are well on our way!

It's true that \$65 is a lot for a book, but the book will last a lifetime. You'd be lucky to find a book that is this many pages, full color and specific to such a small audience at any bookstore. Considering what teens spend on phones, gas, clothes and entertainment, the yearbook is actually a great deal that will last longer than any smart device!

So what are you waiting for? Reserve a copy of the 2012 Northerner today!

NEED TO BUY A YEARBOOK?

Than this is your lucky day! Use this form and order your book today! We are having a special sale for \$65! That is less than the cost of last year's book, and this year the book is bigger and covering more of the year.

After November 4, though, the cost of the book will never be less than \$70, so order today!

NOT SURE ABOUT BUYING A YEARBOOK?

We understand. Buying a yearbook is an investment, but an investment that will last a lifetime. Chances are you have spent more than \$65 on a cell phone (or cell phone bill each month), a shirt, jeans or other item that will be long gone by the time your 50th reunion takes place. The yearbook is the only technology guaranteed to be around in 50 years. Think about buying today. Each week graduates call to see if we have old books for sale and are unfortunately told no. Don't miss out on the memories you may never reclaim!

ORDERING IS AS EASY AS 1, 2, 3...

PLEASE print neatly. Your FINAL, GUARANTEED opportunity to order a book is by Dec. 1. After Dec. 1 books may not be available.
